

What's the solution to the world's growing energy problem?

From Robert Galvin, Motorola's former CEO, and Kurt Yeager, former CEO of the Electric Power Research Institute, comes a bold new approach that will fulfill our energy needs, fix our old systems, and fuel bold new innovations in every industry.

“Reinventing our nation’s electric supply system is at the heart of solving our climate change and energy security problems. This book underscores the urgency of modernizing our grid and our business models to meet this challenge for our future generations.”

– James E. Rogers, Chairman, President,
and Chief Executive Officer, Duke Energy
